

## 1. E-bike Controller | 电助力控制器

We stock original and universal compatible controllers for mainstream drive platforms. Controllers are applied with direct replacement in after-sales service, delivering ready-to-use solutions for maintenance terminals.

中文：储备主流驱动平台原厂及通用兼容型控制器，后市场维保采用整机替换模式，为终端维修商户提供开箱即用的供货方案。

## 2. E-bike Display | 电助力仪表

We supply a full range of dedicated displays for mainstream e-bike powertrain architectures. These components adopt a direct replacement mode in after-sales maintenance, offering plug-and-fit spare solutions for global service providers.

中文译文

供应适配各类主流电助力驱动架构的专用仪表总成，后市场维保以整机替换为主，可为海外服务商提供即装即用的备品方案。

## 3. OEM Hub Motor | 原厂适配轮毂电机

We offer complete hub motor assemblies matching original factory e-bike configurations. A comprehensive set of consumable repair parts including bearings, motor shafts and stators are available to support regular maintenance and fault overhaul.

中文：供应匹配原厂整车配置的轮毂电机整机，配套轴承、电机轴、定子等全套维保耗材，可满足原厂车型常规检修与故障大修需求。

## 4. Hub-Motor Conversion Kit | 轮毂电机改装套件

Multi-wattage hub-motor conversion kits are engineered for bicycle to e-bike power retrofits. Full installation-related hardware and auxiliary components are supplied to support your upgrade and custom-build projects.

中文：多功率轮毂电机改装套件，专为普通自行车改电助力升级而设计，全套安装辅件与配套零部件一站式供货，助力客户开展动力升级、定制改装业务。

## 5. Hanging Mid-drive Motor | 悬挂式中置电机

Our hanging mid-drive motors adapt to mainstream proprietary powertrain platforms. We stock genuine original spare-parts with excellent cost-performance, delivering reliable, budget-friendly replacement solutions for high-precision drive-system maintenance.

中文译文

悬挂式中置电机适配主流专属动力平台。我们常备原厂原装零配件，具备出色性价比，可为高精度驱动系统提供可靠经济的替换维保方案。

## 6. Retrofit Mid-drive Motor | 改装型中置电机

Performance-oriented mid-drive motors for aftermarket conversion are supplied via stable supply chains. Matching wearable spare parts support continuous upgrading and maintenance services for customized e-bike projects.

中文：依托稳定供应链供应改装升级专用中置电机，配套全套易损零配件，可支撑定制化电助力车型的升级与长期维保。

## 7. E-bike Battery Pack | 电池总成

Replacement battery packs and BMS maintenance accessories for standard e-bike power systems are available. Supporting maintenance consumables ensure safe routine maintenance and cell-level professional overhaul.

中文：供应标准规格电助力替换电池总成及 BMS 维保配件，配套专用维保耗材，保障电池日常养护与电芯级专业检修作业安全开展。

## 8. Brake Lever | 制动刹把

We supply OEM-grade and aftermarket compatible brake levers for hydraulic and mechanical braking systems. Matched wearable braking accessories and service hardware are provided as complete replacement kits.
